

Peace River Regional District Report

To: Chair and Directors of the Regional Board
From: Ron Storie, Manager of Community Services
Date: January 20, 2010
Re: E9-1-1 Fire Dispatch System contract award

Recommendation:

That the Regional Board award the E9-1-1 Fire Dispatch System Service contract, to provide radio maintenance and technical support for the E9-1-1 system, to Glentel Inc., Fort St. John, BC, for a three year period, with an option to renew.

Rationale:

Interested companies were invited to submit a Request for Proposal for the provision of radio maintenance and technical support under a "service contract" for the Peace Regions E9-1-1 Fire Radio Dispatch system. One Request for Proposal was received.

Based on a combination of price, experience, qualifications Glentel Inc. was chosen as the most suitable proponent to meet the Regional Districts requirements. The contract amount is within the budgeted amount in the 2010 Financial Plan.
