Permission to Speak

Mr. Peterson outlined the historical background and defended the company's efforts in applying for the permits to set up a 200 man person camp in a gravel pit area, on the south side of the Upper Halfway Road approximately 80 km northwest of the City of Fort St. John. He said they mistakenly thought that the ALR Exclusion of the gravel pit; would include the camp. He said there was frustration on both sides because of the delay in waiting on that ruling. He went on to explain that the location was chosen so as not to disturb farming operations or agricultural land. He closed by stating Mr. Goertz owns all the land surrounding the site, and felt there was no conflict with other neighbours.

A question and answer period ensued, with the following points discussed:

- concern about possible contamination of the water table as it is near the Halfway River;
- the company had moved the camp in, prior to submitting their permit application;
- the lengthy 6-8 month time frame to go through the proper channels for permitting;
- questions about what the company's camp operations policy is.
