RD/10/07/07

Recommendation  
No. 2 - Canadian  
Crude Separators  
- Sunrise Landfill

MOVED by Director Hiebert, SECONDED by Director Saugstad, that direction be given to the Peace River Regional District members of the Working Group, to forward the following list of Agricultural Advisory Committee comments which oppose the Canadian Crude Separators (CCS) proposal to construct an industrial waste landfill on the Southwest 1/4 Section 5, Township 79, Range 16, W6M; and the Southeast Section 8, Township 79, Range 16, W6M; to the Environmental Assessment (EA) process and to CCS, based on the following:

1. both locations are located on ALR lands, need to preserve and maintain ALR lands, these areas have been in agricultural production since the 1930's;
2. dependability of area residents on surface water;
3. concern for quality and quantity of natural and historic water flows; and
4. agricultural producers' health and welfare, potential for noise, dust, increased traffic, etc.

CARRIED

Recommendation  
No. 3 - *Agricultural  
Land Commission Act*

RD/10/07/08

MOVED by Director Hiebert, SECONDED by Director Hadland, that the Regional Board endorse recommendation No. 3 from the June 15, 2010 meeting of the Agricultural Advisory Committee regarding strengthening the *Agricultural Land Commission Act*.

RD/10/07/09

MOVED by Alternate Director Christensen, SECONDED by Director Ackerman, that recommendation No. 3 from the June 15, 2010 meeting of the Agricultural Advisory Committee regarding strengthening the *Agriculture Land Commission Act* be forwarded back to the Agricultural Advisory Committee for clarification regarding the intent of their recommendation.

CARRIED

RD/10/07/10

MOVED by Director Saugstad, SECONDED by Director Hadland, that staff be requested to investigate the feasibility of developing a coordinated approach, involving industry and the provincial government, to discuss oil and gas industry waste disposal issues, such as:

1. the environmental assessment process looks at individual sites only, but should also look at them cumulatively, as so many are being proposed;
2. the necessity and financial viability for multiple sites, and whether or not there is enough waste to support them all; and
3. the advantages / disadvantages of land farm versus landfill disposal.

CARRIED

RD/10/07/11

MOVED by Director Ackerman, SECONDED by Alternate Director Christensen, that an invitation be forwarded to the Agriculture Land Commissioners to meet with the Regional Board at a future meeting, when they plan to be in the area.

CARRIED

- 6) Recess The meeting recessed for coffee at 9:55 a.m.  
7) Reconvene The meeting reconvened at 10:05 a.m.

DELEGATIONS:

- 8) D-1  
Colleen Borodula  
re: Secure Energy  
Services  
  
Handout: "Facts and  
Figures" and map

Colleen Borodula representing concerned residents from the Tupper area handed out a list of "Facts and Figures" as well as a map, relating to the Secure Energy Service's proposal to construct a hazardous waste landfill in the Swan Lake area. She compared the proponent's statements with her research and elaborated on the comments she felt, were conflicting. She highlighted the opposition expressed in the previous night's public information meeting, stating residents feel the risk to the area's ground water sources is too high. They understand there is a need for this kind of disposal service for industry, and that there would be no problem if it were located in another area away from people and water sources.

RD/10/07/12

MOVED by Director Hiebert, SECONDED by Director Clark, that the handout "Facts and Figures" and map relating to the Secure Energy Service's proposal to construct a hazardous waste landfill in the Swan Lake area be received.

CARRIED

Mr. Darryl Kroeher of Ducks' Unlimited indicated that he highlighted all the water shed water ways and downhill flow of the water to Swan Lake on the map and went on to explain that Ducks' Unlimited has been engaged with industry on many levels, but in this instance, takes a stand in opposition to the proposed Heritage Secure Landfill south of Tupper.

A question and answer period ensued.

RD/10/07/13

MOVED by Director Hadland, SECONDED by Alternate Director Christensen that Frank Gabriel be given permission to speak from the gallery.

CARRIED

Mr. Gabriel voiced his displeasure with the notification and advertising process and made suggestions to better inform residents of projects such as this. He held up three pages of his reasons for strongly opposing the proposal. He expressed appreciation to the Board for listening to the peoples' concerns.

The delegation left the meeting at 10:38 a.m.

Discussion continued regarding Secure Energy's apparent disregard to recommendations made by the working group members of the Peace River Regional District.

RD/10/07/14

MOVED by Director Ackerman, SECONDED by Director Hadland. that a letter be forwarded to Secure Energy requesting clarification of their response to the recommendations on consultation made by the Peace River Regional District working group members.

CARRIED

9) D-2  
Nick Parsons  
re: Peace Valley and  
Site C Dam

Mr. Nick Parsons introduced himself as a former dairy and custom farmer originally from England, who now is opposing the potential loss of the agriculturally productive Peace River valley to the Site C Dam project. He equated the beauty of the river valley with three scenic rivers in New Zealand and stated that there is less than one percent of soil in Canada that has this type of highly productive microclimate. He agreed that dams could be successfully built on canyons and rock valleys, but not on sloughing hills, which the Peace is noted for. He said he couldn't understand why BC Hydro refused the bid for power, and essentially shut down the proposed Thunder Mountain wind project, which had the potential to produce power equal to Site C, without the destruction of prime agricultural land along the valley. He also felt there were other existing dams in the province which could accommodate more turbines and produce power closer to where it is consumed, reducing the amount of line loss waste which occurs in the transmission power from the north of the province.

Mr. Parsons elaborated on the upcoming fifth annual "Paddle for the Peace" event which is being held to bring awareness to the valley that would be lost forever, should Site C proceed. His hope was that in twenty years, the boating event could celebrate twenty-five years of enjoyment of the scenic river valley.

Mr. Parsons read a letter he received from Premier Gordon Campbell in July of 2009, recognizing his concerns.

In closing, Mr. Parsons stated that the future of the river is in the peoples' hands.

10) Recess

The meeting recessed for coffee at 10:58 a.m.

11) Reconvene

The meeting reconvened at 11:03 a.m.
