

Peace River Regional District Stackyard Fencing Producer Survey

At the last Wildlife Committee meeting a recommendation was forwarded to the Peace River Regional District requesting authorization for the distribution of a survey to producers who constructed a stackyard fence under the Regional District Stackyard Fence program (2000 to 2005). The purpose of this survey is to obtain information and statistics on the effectiveness of the stackyard fence program. This information will be compiled to develop a business case to request that funding of a stackyard fence program under the ARDCorp Program be implemented. We are asking for your assistance and input, all information collected will be kept confidential.

If you know of any other producer who has constructed a stackyard fence, without receiving funding from the Regional District, please let us know or share this survey with those who may be interested. Additional copies may be obtained from our website at www.prrd.bc.ca. The more information and statistics that can be compiled will assist in the development of a better business case.

Please complete the Survey and return by **August 31, 2011** and return:

- a) in the self addressed envelope provided; or
- b) by email to prrd.dc@prrd.bc.ca; or
