1. Resident Concerns

- Communication – provincial and federal governments are not listening to area residents (public)
- Need more two way discussions – government don't wish to hear the people
- Subdivision opportunity for fragmented parcels in the Tomslake/Tupper area – cut off by hwys.
- Want to see ¼ Section subdivision remain as a land owners option
- Need to encourage rural community growth, ie convenience stores, post office, schools
- Road maintenance – major concern. Heavy use by industry make local roads almost impassable and very unsafe.
- Services to the rural areas would be a great benefit.
- ie. Water supply and Natural Gas
- Water is a vital resource and it is scary watching how wasteful industry uses it.
- Do not believe in 'Climate Change' rather, believe this is just 'climate' it changes!!

2. TERMINATION
